

Benefits of SAP S/4HANA for Life Sciences

**Built for Life Sciences Companies Facing
Compliance, Batch Release, and Inventory Pressures**

Life sciences companies operate in a highly regulated environment where data accuracy, compliance, batch release speed, inventory control, and order fulfillment directly impact business performance and patient outcomes. SAP S/4HANA helps life sciences organizations modernize operations, automate compliance-heavy processes, improve visibility, and reduce manual effort across the enterprise.

Challenges

1
Cumbersome
data collection
and evaluation
across siloed
systems

2
Long order
fulfillment
lead times drive
oversized
inventories and
carrying costs

3
Legacy business
processes
increase human
error, legal, and
compliance risk

4
Labor-intensive,
paper-based
batch release
slows
operations

The SAP Advantage

1
Predefined
release checks
with automatic
evaluation

2
Software-agnostic
integration with
SAP and
third-party
solutions

3
Flexible configuration
for batch release
scenarios, including
CMOs, market, and
distribution release

4
Automates and
simplifies time-
consuming batch
release activities
to reduce compliance
and risk management
costs

5
Custom release
checks for manual
evaluation when
needed

Business Value

Cloud-First

Supports migration
from on-premise
to the cloud

Higher Efficiency

Increased efficiency
across end-to-end
business processes

Compliance Accuracy

Avoid progressive
non-compliance
penalties

Lower Inventory

Reduce days
in inventory

Greater Capacity

Increase capacity
utilization

Reduce revenue loss
due to fulfillment
issues

Reduce order
fulfillment
lead time

Reduce employee
manual transaction
effort

Reduce compliance
and risk
management cost

Reduce IT
infrastructure
spend

Improve visibility
across operations

**SAP S/4HANA helps life sciences companies build a more
compliant, efficient, and cloud-ready enterprise.**
